WE'RE AWESOME WE RECYCLE

At the Good Food and Drink Company, we take recycling and the impact on our environment very seriously.

We practice a Reduce, Reuse, Recycle policy across all our businesses and work very closely with local partners and suppliers to reduce the amount of waste going into landfill, resulting in production of harmful greenhouse gasses.

We recycle all paper, plastic, tin, glass, printer cartridges and most importantly all our food waste is placed in an anaerobic digester and the energy produced goes back into the local grid.

Working together with 'Surfers against Sewage' and 'Plastic Free North Devon' to reduce the need for single use plastics in our businesses as well as encouraging our suppliers to do the same, to protect our oceans and environment for future generations.
